

## HE THE GOVERNOR MAKES A SURPRISE VISIT TO THE POWER STATION

HE the Governor made a surprise visit to the Power Station on Tuesday, 7<sup>th</sup> February, to extend his thanks and appreciation to the team for the work undertaken to resolve the recent major fault.

The Power Station team is led by Merrill Lawrence, Electricity Generation Manager. Merrill has over 20 years' experience in the engineering field as a qualified mechanical and electrical engineer.

Merril and HE the Governor

Dougie, Robin and Raymond preparing to disconnect the alternator from the engine on No.1 generator to remove the flywheel and replace the crankshaft oil seal. Then replace the coupling.

Merril preparing for installation of the new coupling on Generator No. 1

Thanks were extended to Merrill and his team comprising Raymond (Dougie) Henry - Power Generation Fitter, Robin Youde - Power Generation Operator, and Raymond Williams - Power Station Assistant for their hard work, dedication and professionalism in successfully carrying out the repairs to Generator No. 1 the previous weekend. Thanks were extended to the entire Generation Team for ensuring minimal disruption to the power supply during the contingency period.
