

Unconventional Leaders Driving Sustainable Practices in Ohio

**Department of
Rehabilitation
& Correction**

The Ohio Department of Rehabilitation and Corrections (ODRC) drives energy, water, and waste reductions in state correctional facilities using a sustainability strategy that overcomes barriers through education, engagement, and policy.

- ▶ Reduced electricity consumption by nearly 40% at Belmont facility
- ▶ Reduced water consumption by more than 30% at Allen Oakwood facility
- ▶ Decreased the amount of waste going to the landfill by nearly 30% and increased recycling through employee and incarcerated population green teams
