## Chapter 63 | Strengthening the Centralized, Unified Leadership of the Party Central Committee

Ensuring that the Party charts our course, drafts overall plans, designs policy, and promotes reform, and thoroughly studying and implementing Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, we will raise our consciousness of the need to maintain political integrity, think in big-picture terms, follow the leadership core, and keep in alignment with the central Party leadership. We will stay confident in the path, theory, system, and culture of socialism with Chinese characteristics; and we will uphold General Secretary Xi Jinping's core position on the Party Central Committee and in the Party as a whole, and uphold the Party Central Committee's authority and its centralized, unified leadership. We will keep enhancing our capacity for political judgment, thinking, and implementation, uphold Party leadership in every aspect throughout the whole process of the plan's execution, and ensure that the Party Central Committee's major decisions and plans are implemented. We will give full play to the guiding and supporting role of rigorous Party self-governance, and incorporate improvement of Party and state supervision systems into the plan's implementation. We will improve organizational systems enabling smooth linkage between different levels and effective implementation, and enhance the political and professional capacity of leading bodies and officials at every level to advance reform, promote development, and ensure stability in ways that fit the needs of the new era.

We will motivate all of society to take part in the plan's implementation. We will emphasize the role of trade unions, the Communist Youth League, and women's federations, fully exert the role of other political parties,

federations of industry and commerce, and public figures without party affiliation, and work to pool consensus and strength throughout society to the greatest possible extent. We will build endogenous incentive mechanisms that meet the needs of high-quality development, and improve mechanisms for incentive-oriented performance assessment and for ensuring that no one who has fulfilled their duties is held liable, in an effort to stimulate the initiative, enthusiasm, and creativity of officials, especially those working at the primary level.
