SECTION II: GENERAL

- A. LIMITATIONS: Use of the rate(s) contained in this Agreement is subject to all statutory or administrative limitations and is applicable to a given grant, contract or other agreement only to the extent that funds are available. Acceptance of the rate(s) agreed to herein is predicated upon the following conditions:
1. That no costs other than those incurred by the grantee/contractor or allocated to the grantee/contractor via an approved central service cost allocation plan were included in its indirect cost rate proposal and that such incurred costs are legal obligations of the grantee/contractor and allowable under the governing cost principles,
 2. That the information provided by the grantee/contractor which was used as a basis for acceptance of the rate(s) to herein is not subsequently found to be materially inaccurate,
 3. That the same costs that have been treated as indirect costs have not been claimed as direct costs, and
 4. That similar types of costs have been accorded consistent treatment.
- B. ACCOUNTING CHANGES: The grantee/contractor is required to provide written notification to the indirect cost negotiator prior to implementing any changes which could affect the applicability of the approved rates. Any changes in accounting practice to include changes in the method of charging a particular type of cost as direct or indirect and changes in the indirect cost allocation base or allocation methodology require the prior approval of the Office of Overhead, Special Cost and Closeout (OCC). Failure to obtain such prior written approval may result in cost disallowance.
- C. NOTIFICATION TO FEDERAL AGENCIES: A copy of this document is to be provided by this organization to other Federal funding sources as a means of notifying them of the Agreement contained herein.
- D. PROVISIONAL-FINAL RATES: The grantee/contractor must submit a proposal to establish a final indirect cost rate within nine months after its fiscal year end. Billings and charges to Federal awards must be adjusted if the final rate varies from the provisional rate. If the final rate is greater than the provisional rate and there are no funds available to cover the additional indirect costs, the organization may not recover all indirect costs. Conversely, if the final rate is less than the provisional rate, the organization will be required to pay back the difference to the funding agency.

SPECIAL REMARKS:

1. Indirect costs charged to Federal grants/contracts by means other than the rate(s) cited in the agreement should be adjusted to the applicable rate(s) cited herein which should be

applied to the appropriate base to identify the proper amount of indirect costs allocable to the program.

2. Grants/contracts providing for ceilings as to the indirect cost rate(s) or amount(s), which are indicated in Section I above, will be subject to the ceilings stipulated in the grant, contract or other agreement. The ceiling rate(s) or the rate(s) cited in this Agreement, whichever is lower, will be used to determine the maximum allowable indirect cost on the grant or contract agreement.
3. The rates hereby approved are subject to periodic review by the Government at any time their use is deemed improper or unreasonable. You are requested to advise the Government promptly of any circumstances, which could affect the applicability of the approved rates.
4. You are directed to submit adjustment or final financial expenditure reports (SF-425) for all flexibly priced grants and other agreements; or adjustment or final vouchers for all flexibly priced contracts within 120 days after settlement of the final annual indirect cost rates. Audit adjustments should be clearly delineated so as to be readily identifiable for verification by this office. Care should be taken that amounts claimed do not exceed award limitations or indirect cost rate ceilings. USAID will deobligate any remaining funds if the required financial expenditure reports or vouchers are not submitted within 120 days. Once the money is de-obligated, it will not be reinstated.
