

# Guardian™ Portfolio is Expanding

**Guardian™ Portfolio keeps growing with more product options for our customers to manage product support, subscription management, and lifecycle software and services.**

Since launching the New Guardian™ Vision, our unwavering focus has been on delivering an unparalleled digital customer experience to seamlessly and proactively help you manage your subscriptions, connect you to expert support, and provide personalized interactions with our Lifecycle software and services.

Our commitment to this vision is reflected in our current Guardian portfolio which already includes many of our industry leading solutions, including DeltaV™, Ovation™, AMS and our energy logistics software. With Guardian, you can expect an unmatched level of convenience, efficiency, and effectiveness in managing your Emerson products and services.
