

The Jersey Curriculum

Foreword

Jersey is a unique place. Our Island is also closely linked by culture, family, location and history to neighbours, near and far. The Jersey Curriculum is designed to ensure our children and young people grow and learn as well educated citizens of our Island and the world. It is based on the new National Curriculum in England, adapted to reflect both our Island's unique heritage and environment and the needs of the local economy. The new curriculum is a central part of the wider development of Education in Jersey, a key priority of the new Council of Ministers.

The Jersey Curriculum provides an outline of core knowledge around which teachers in our schools develop exciting and stimulating lessons to promote the development of pupils' knowledge, understanding and skills as part of the wider school curriculum. Alongside the introduction of the new curriculum, we are developing new processes to measure pupils' progress and attainment. Together with our wider work in supporting families, investing in early years, and improving the inclusion of all pupils, the Jersey Curriculum is central to our drive to raise standards. As we implement our Education Business Plan, the Jersey Curriculum will be continuously reviewed to best develop the learning, knowledge and skills of all Jersey children and young people.

Deputy Rod Bryans, BA (Hons), Education Minister
