Report of Independent Certified Public Accountants

Board of Directors World Resources Institute and Subsidiary

We have audited the accompanying consolidated statements of financial position of the World Resources Institute and Subsidiary (the Institute) as of September 30, 2008 and 2007, and the related consolidated statements of activities, and changes in net assets, and consolidated cash flows for the years then ended. These consolidated financial statements are the responsibility of the Institute's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used, and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Institute as of September 30, 2008 and 2007, and the consolidated changes in its net assets and consolidated cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated December 19, 2008 on our consideration of the Institute's internal control over financial reporting, and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic consolidated financial statements. The accompanying supplemental schedules on pages 29-35 are also presented for purposes of additional analysis, and are not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly presented in all material respects, in relation to the basic consolidated financial statements taken as a whole.

Notes to Consolidated Financial Statements

September 30, 2008 and 2007

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

World Resources Institute (the Institute) is an independent research and policy institute founded in 1982 to help governments, environmental and development organizations, and private businesses address a fundamental question as to how societies can meet basic human needs and nurture economic growth without undermining the natural resource base and environmental integrity.

The Institute's work is carried out by an approximately 150-member interdisciplinary staff, strong in sciences, and augmented by a network of advisors, collaborators, international fellows, and cooperating institutes in more than 50 countries. The Institute currently focuses on four goals: (1) Governance & Access, (2) People & Ecosystems, (3) Climate & Energy, and (4) Markets & Enterprise.

The Internal Revenue Service (IRS) has classified the Institute as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC), as a publicly supported not-for-profit organization.

The World Resources Institute Fund (WRIF) is a not-for-profit organization created in 1986 as a supporting organization to the Institute, and is included in these consolidated financial statements. Prior to fiscal year 2002, and after 2003, WRIF had no activities. In 2002 and 2003, WRIF activities included the operation of a capital campaign. Such activities have been shifted to the Institute since. WRIF is currently used to record investment activities for the African Centre for Technology Studies (ACTS) endowment (see note H). The IRS has classified WRIF as exempt from federal income taxes under Section 501(c)(3) of the IRC. WRIF is an entity described under Section 509(a)(3) of the IRC and, therefore, not a private foundation.

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Classification of Net Assets

Activities of the Institute are recorded in the following net asset categories:

Operating-Unrestricted revenues and operating expenses of the Institute. Current investment earnings are available to support current operations.

Designated—Working Capital Reserve—Amounts designated by the Board of Directors of the Institute to be maintained as part of a reserve and used to support certain specific future activities as defined by the Board of Directors.

Designated-Other-Amounts designated by the Board of Directors to be used in a manner similar to an endowment.

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Classification of Net Assets—Continued

Temporarily Restricted—Contributions restricted, as to time or purpose, by the donor. When the purpose or time period restriction is met, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently Restricted—Funds that are restricted by donors requiring that the principal be invested in perpetuity. The earnings on these funds are unrestricted and are used for operations in accordance with a spending policy approved by the Board of Directors.

Revenue Recognition

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Contributions are reported as increases in the appropriate category of net assets, except for the contributions that impose restrictions that are met in the same fiscal year they are received, which are included in unrestricted revenues.

Income from grants and contracts is currently recorded as unrestricted revenue when the costs are incurred. Amounts received that have not been expended are recorded as deferred revenue. The amount of expenses incurred in excess of funds received is included in grants and contracts receivable.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Institute considers all highly liquid investment instruments purchased with an initial maturity of three months or less to be cash equivalents.

The Institute has cash in foreign accounts totaling \$2,883 and \$504,903 in 2008 and 2007, respectively.

Investments

The Institute records its investments at fair market value based on quoted market prices, except for limited liability partnerships, which are recorded at estimated values.

Furniture, Fixtures and Equipment

Furniture, fixtures, and equipment are recorded at cost. Depreciation is recorded on the straight-line basis over estimated useful lives that range from three to five years. Leasehold improvements are amortized over the shorter of their useful lives or the lease term. Assets purchased under a capital lease are recorded as an asset and a corresponding obligation at the beginning of the lease term. The recorded amount is equal to the present value of the minimum lease payments. Leased assets are amortized over the shorter of their useful lives or the lease term. When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss arising from such disposition is included in the consolidated statement of activities.

The Institute has capitalized its collections. Collections consist of artwork that is held for public exhibition. Collections purchased are capitalized at cost, collections donated are capitalized at appraised value as of the date of the acceptance of the donation. Collections are not depreciated.

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Costs Subject to Audit

The Institute's costs under its government grants and cooperative agreements are subject to audit by the awarding agencies. Management of the Institute does not believe that the results of such audits would have a material impact on the financial position and operating results of the Institute.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Cash is held at financial institutions in excess of federally insured amounts. At September 30, 2008 and 2007, \$1,392,516 and \$1,892,841 respectively, were held at these institutions. The Institute has not incurred any losses on these funds.

Reclassification

Certain amounts in prior years have been reclassified to conform to the current period presentation.

NOTE B-INVESTMENTS

Investments were as follows as of September 30:

		2008		2007.
Short-term investments Limited liability partnerships Equities	\$	407,014 28,879,426 7,056,339	\$	663,170 30,632,967 15,504,956
Total	\$	36,342,779	\$.	46,801,093

Investment return consists of the following for the years ended September 30:

		2008	 2007
Realized (losses) gains Unrealized (losses) gains Dividends and interest Investment management fees and foreign taxes	\$.	(1,587,193) (8,251,750) 751,392 (307,653)	\$ 1,360,225 6,577,661 519,124 (522,422)
Total	\$	(9,395,204)	\$ 7,934,588

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE C-GRANTS, PLEDGES, AND CONTRACTS RECEIVABLE

Grants, pledges and contracts receivable are recorded at their net realizable values. The mix of receivables as of September 30, was as follows:

E	2008	2007
U.S. government	2%	7%
Foundations	17%	11%
Foreign governments	11%	21%
Foreign governments International organizations	13%	1%
Corporations, individuals, and others	57%	60%
	100%	100%

As of September 30, the Institute's receivables were due as follows:

		2008		2007.
Less than one year One to four years Allowance for doubtful accounts Unamortized discount on receivables	\$	9,568,648 3,780,000 (89,893) (217,003)	\$	9,335,242 5,612,505 (178,597) (430,483)
Grants, pledges, and contracts receivable, net	<u>\$</u>	13,041,752	\$.	14,338,667

Contributions that are to be received over multiple years are discounted to present value using the average interest earned on the money market account for the year in which the contributions were pledged.

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE D-FURNITURE, FIXTURES, AND EQUIPMENT

Furniture, fixtures, and equipment consist of the following at September 30:

		2008	2007
Furniture and equipment Leasehold improvements Equipment under capital lease agreements Artwork		2,754,413 967,606 141,552 8,825	\$ 2,163,784 947,362 141,552 8,825
Less: accumulated depreciation and amortization	<u>:</u>	3,872,396 (2,577,484)	3,261,523 (2,472,207)
Furniture, fixtures, and equipment, net	\$	1,294,912	\$ 789,316

NOTE E-OBLIGATIONS UNDER CAPITAL LEASES

The Institute is obligated under capital lease agreements for certain copy equipment. The aggregate discounted lease payments are recorded as a liability. Obligations under capital leases and the fair market values of the related leased assets are capitalized and amortized over the related lease periods. Total assets capitalized pursuant to such agreements, and the related accumulated amortization at September 30, were as follows:

		2008	 2007
Equipment under capital lease Less: accumulated amortization	*	141,552 (73,413)	\$ 141,552 (45,408)
Equipment under capital lease, net	<u>\$</u>	68,139	\$ 96,144

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE E—OBLIGATIONS UNDER CAPITAL LEASES—Continued

The future minimum lease payments under the capital lease agreements and the present value of the minimum lease payments and interest are as follows:

2009	\$	34,492
2010		34,492
2011		21,609
Thereafter		1,132
Total future minimum lease payments		91,725
Less: amount representing interest	Hyven	(8,607
Present value of minimum lease payments	\$	83,118

Interest expense related to the capital leases was \$6,745 and \$6,308 respectively, for the years ended September 30, 2008 and 2007.

NOTE F-OFFICE LEASE COMMITMENTS AND RENT ABATEMENT

The Institute has entered into various operating lease agreements. During 2007, the Institute renegotiated and extended its current lease, under an agreement which expires in February 2019. As part of the office building lease, the Institute received two months of free rent. This rent abatement is being amortized on a straight-line basis over the life of the lease as a reduction of rent expense.

The future minimum lease payments as of September 30, 2008, are as follows:

2009	\$ 2,015,394
2010	2,042,680
2011	2,054,206
2012	2,100,413
2013	2,147,660
Thereafter	12,298,780
Total	\$ 22,659,133

Rental expense for these leases was \$1,963,196 and \$1,638,320 for the years ended September 30, 2008 and 2007, respectively.

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE G—LOANS PAYABLE

During fiscal year 2008, the Institute obtained a margin loan of \$2,000,000 from Citigroup Smith Barney with an open maturity date. The interest rate on the line-of-credit was based on London Interbank Offered Rate (LIBOR) as published in The Wall Street Journal "Money Rates" table two business dates after the date the line-of-credit is requested. The assets held in four of the Institute's investment accounts are collateral for this loan. The balance outstanding on this loan at September 30, 2008 was \$2,000,000. The Institute borrowed against the margin line rather than drawing funds from investments and realizing losses in the process.

NOTE H—FUNDS HELD FOR OTHERS

The Ford Foundation gave a grant (for endowment) of \$1,200,000 to ACTS (an unrelated organization) in Nairobi, Kenya. ACTS requested the Institute to hold the funds in an interest-bearing account until further notice, earning interest of \$264,058 as of September 30, 2008.

In addition, \$6,892 is being held for Millennium Assessment Zayed Award, and Asian Development Bank as of September 30, 2008 as pass thru grants.

NOTE I—PERMANENTLY RESTRICTED NET ASSETS

In 1987, the MacArthur Foundation gave the Institute a challenge loan of \$12,516,000 with the understanding that it would forgive this loan to the extent that the Institute raised qualifying matching funds under a comprehensive development program. The purpose of the challenge loan was to facilitate the establishment of a permanent endowment for the Institute.

After the Institute successfully met the terms of the loan agreement, an endowment was formally established at the level of \$25 million (cost basis) on January 1, 1991, with earnings on the corpus expendable to support any activities of the Institute. The Institute's Board of Directors adopted a policy statement entitled Endowment Fund: Purposes, Goals, and Policies, which establishes spending rules for future withdrawals of earnings to cover portions of the Institute's annual operating budget while protecting the value of the endowment against inflation. Investment earnings from the endowment (net of investment expenses) are recognized as unrestricted designated revenue. During 2008 and 2007, \$2,288,453 and \$960,340, respectively, of these earnings were transferred from unrestricted designated to unrestricted operating net assets in accordance with the policy statement referred to above. The Board of Directors also authorized management to draw down an additional \$750,000 in 2007 and \$500,000 in 2008 to cover development expenses in lieu of the Capital Campaign which ended in 2007. Approximately \$504,720 of additional draw was used in fiscal 2008.

In 2003 and 2007, two individuals contributed \$100,000 and \$250,000 respectively for the purpose of creating endowment funds to enable the Institute to hire interns. Investment earnings from the endowment funds are recognized as unrestricted designated revenue and used to pay for interns. The Institute funded interns for \$30,000 and \$15,058 respectively from the earnings of these endowments.

Total	\$	9,612,734	\$ 5,368,078

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

NOTE K—SHORT FALL IN TEMPORARILY RESTRICTED NET ASSETS

The Institute's temporarily restricted net assets were under funded by approximately \$1.2 million dollars at September 30, 2008. The shortfall is due to unrealized losses on investments and long term contributions not yet received. The Institute believes that unrealized losses on investments are temporary in nature and the Organization will collect its multi-year contributions to meet its restrictions when they are released.

NOTE L—SIGNIFICANT CONTRACTS

The Institute was awarded a four-year 6,000,000 euro grant on October 1, 2004, by the Netherlands Ministry of Foreign Affairs for core funding in response to their proposal Leveraging Change at the Nexus of Poverty, Ecosystem and Governance. WRI has received 5,625,000 euros (7,039,950 US dollars) as of September 30, 2008. A total of \$7,553,025 (US dollars) of this grant has been spent over the past 4 fiscal years ending September 30, 2008. For fiscal year 2008, we received \$1,984,950 and spent \$2,121,794.

The Institute initiates and completes a substantial portion of its projects within the Institutions & Governance and People & Ecosystems Programs pursuant to couple of cooperative agreements from the U.S. Agency for International Development. The revenue pursuant to these cooperative agreements was \$2,379,276 and \$3,504,968 for the years ended September 30, 2008 and 2007, respectively. Such revenue accounted for approximately 10.9 percent and 13.8 percent of total federal and non-federal grants, contributions, and cooperative agreement revenues during the years ended September 30, 2008 and 2007, respectively.

Notes to Consolidated Financial Statements—Continued

September 30, 2008 and 2007

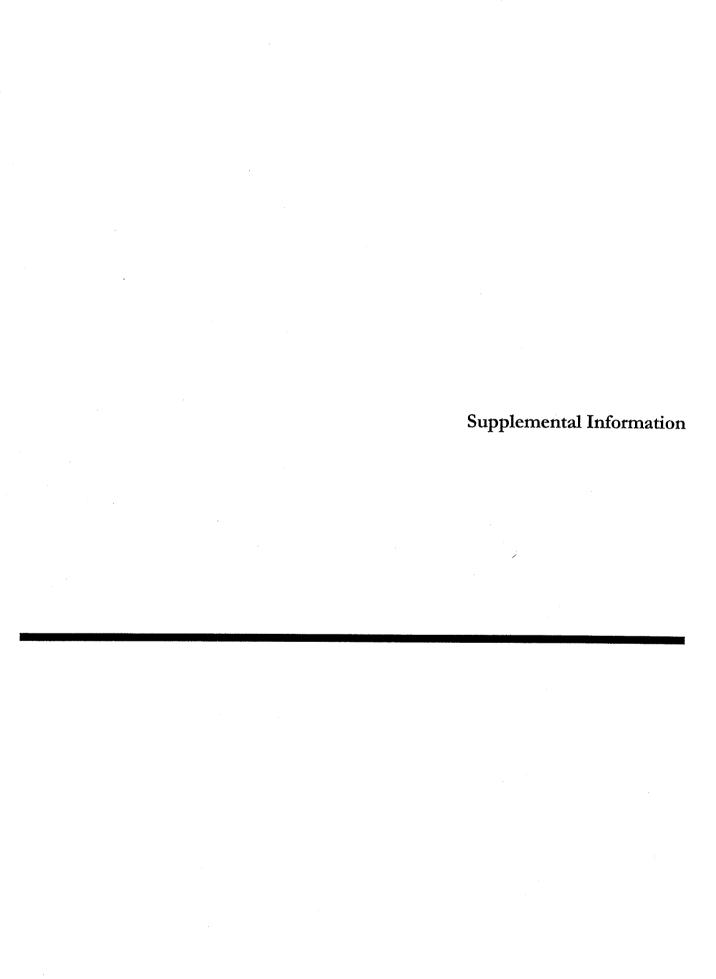

NOTE M-EMPLOYEE BENEFITS

The Institute contributes either 5 percent or 8 percent (based on years of service) of eligible employees' annual earnings, as defined in Plan agreements under a defined contribution plan. The amount contributed to the Plan for the years ended September 30, 2008 and 2007, was \$670,352 and \$603,225, respectively.

NOTE N—PROGRAM EXPENSE

Expenses by program are as follows as of September 30:

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2008

NOTE A—BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes all federal grants to the Institute that had expenditure activity during the year ended September 30, 2008. This Schedule has been prepared on the accrual basis of accounting for expenditures in accordance with accounting principles generally accepted in the United States of America. Grant revenues and expenditures are recorded for financial reporting purposes when the Institute has met the qualifications for the respective grants. Grant revenues are equivalent to grant expenditures. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-profit Organizations Receiving Federal Awards.

NOTE B—SUBRECIPIENTS

Of the federal expenditures presented in this Schedule, the Institute provided federal awards to subrecipients totaling \$736,673 in the following areas:

 2008
\$ 57,335
99,000
497 600
487,690 13,750
12,398
34,000
 32,500
\$ 736,673
\$

NOTE C—CATALOG OF FEDERAL DOMESTIC ASSISTANCE

Catalog of Federal Domestic Assistance (CFDA) numbers are not assigned to the U.S. Agency for International Development grants and contracts. However, because of their similarities, we have considered all such contracts as one program for determination in applying OMB Circular A-133.

Board of Directors World Resources Institute and Subsidiary

We have audited the consolidated financial statements of World Resources Institute and Subsidiary (the Institute) as of and for the year ended September 30, 2008, and have issued our report thereon dated December 19, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Institute's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Institute's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Institute's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Institute's financial statements that is more than inconsequential will not be prevented or detected by the Institute's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to material weaknesses, as defined as above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Institute's consolidated financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended for the information and use of the Board of Directors, Audit Committee, management, legislative or regulatory bodies and federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Board of Directors World Resources Institute and Subsidiary

Compliance

We have audited the compliance of the World Resources Institute and Subsidiary (the Institute) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to its major federal program for the year ended September 30, 2008. The Institute's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the Institute's management. Our responsibility is to express an opinion on the Institute's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments and Nonprofit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Institute's compliance with those requirements, and performing such other procedures as we considered necessary under the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Institute's compliance with those requirements.

In our opinion, the Institute complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended September 30, 2008.

Internal Control over Compliance

The management of the Institute is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Institute's internal control over compliance with the types of compliance requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Institute's internal control over compliance.

A control deficiency in the Institute's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies that adversely affects the Institute's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a major program that is more that inconsequential will be prevented or detected.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the Institute's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be a significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information and use of the Board of Directors, Audit Committee, management, legislative or regulatory bodies and federal awarding agencies, and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Note to Schedule of Indirect Cost and Fringe Benefit Rate Calculations

Year ended September 30, 2008

NOTE A—BASIS OF ACCOUNTING

The calculation of allocation rates is prepared in accordance with the methodologies used by the Institute in negotiating its indirect facility cost, fringe benefit, and general and administrative cost rates with its oversight agency, the U.S. Agency for International Development. Revenue is recorded using provisional approved rates. The difference between actual and provisional rates is not material to the financial statements as a whole.

Facility Cost Rate—represents total indirect costs less unallowable costs as a percentage of total direct costs, which includes fringe benefit costs, less all charges representing costs incurred pursuant to subcontract or subgrant agreements and unallowable costs.

Fringe Benefit Rate—represents the cost of total fringe benefit expenses as a percentage of total salary and wage charges that result in related fringe benefit expenses. Fringe benefit costs are included as a direct cost in the calculation of both the overhead, and the general and administrative cost rates.

General and Administrative Rate—represents all general and administrative expenses as a percentage of direct costs incurred, less charges representing costs incurred pursuant to subcontract or subgrant agreements.

Subgrant Pool Rate-represents subgrant-related salaries as a percentage of total subgrant costs.
