Board of Directors World Resources Institute and Subsidiary

We have audited the accompanying consolidated statements of financial position of the World Resources Institute and Subsidiary (the Institute) as of September 30, 2009 and 2008, and the related consolidated statements of activities, and changes in net assets, and consolidated cash flows for the years then ended. These consolidated financial statements are the responsibility of the Institute's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements, assessing the accounting principles used, and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Institute as of September 30, 2009 and 2008, and the consolidated changes in its net assets and consolidated cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated December 15, 2009 on our consideration of the Institute's internal control over financial reporting, and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audits.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic consolidated financial statements. The accompanying supplemental schedules on pages 33-39 are also presented for purposes of additional analysis, and are not a required part of the basic consolidated financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic consolidated financial statements and, in our opinion, is fairly presented in all material respects, in relation to the basic consolidated financial statements taken as a whole.

Notes to Consolidated Financial Statements

September 30, 2009 and 2008

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Principles of Consolidation

World Resources Institute (the Institute) is an independent research and policy institute founded in 1982 to help governments, environmental and development organizations, and private businesses address a fundamental question as to how societies can meet basic human needs and nurture economic growth without undermining the natural resource base and environmental integrity.

The Institute's work is carried out by an approximately 200-member interdisciplinary staff, strong in sciences, and augmented by a network of advisors, collaborators, international fellows, and cooperating institutes in more than 50 countries. The Institute currently focuses on four goals: (1) Governance & Access, (2) People & Ecosystems, (3) Climate & Energy, and (4) Markets & Enterprise.

The Internal Revenue Service (IRS) has classified the Institute as exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code (IRC), as a publicly supported not-for-profit organization.

The World Resources Institute Fund (WRIF) is a not-for-profit organization created in 1986 as a supporting organization to the Institute, and is included in these consolidated financial statements. Prior to fiscal year 2002, and after 2003, WRIF had no activities. In 2002 and 2003, WRIF activities included the operation of a capital campaign. Such activities have been shifted to the Institute since. WRIF is currently used to record investment activities for the African Centre for Technology Studies (ACTS) endowment (see note H). The IRS has classified WRIF as exempt from federal income taxes under Section 501(c)(3) of the IRC. WRIF is an entity described under Section 509(a)(3) of the IRC and, therefore, not a private foundation.

New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board (FASB) issued new guidance to establish the FASB Accounting Standards Codification (the "Codification") as the single source of authoritative nongovernmental U.S. GAAP. The Codification is effective for interim and annual periods ending after September 15, 2009. The adoption of this standard has not had a material impact on the Institute's consolidated financial statements.

In December 2008, the Financial Accounting Standards Board ("FASB") issued FASB Codification 740-10-25-6.A: Effective Date for Nonpublic Entities Regarding Provisions of Subtopic 740-10 Related to Uncertain Tax Positions which permits an entity within its scope to defer the effective date to its annual financial statements for fiscal years beginning after December 15, 2008. Accordingly, the Institute elected to defer the adoption of this guidance. The Institute evaluates its uncertain tax positions using the provisions of ASC 450, Contingencies. Accordingly, a loss contingency is recognized when it is probable that a liability has been incurred as of the date of the financial statements and the amount of the loss can be reasonably estimated. The amount recognized is subject to estimate and management judgment with respect to the likely outcome of each uncertain tax position. The amount that is ultimately sustained for an individual uncertain tax position or for all uncertain tax positions in the aggregate could differ from the amount recognized. ASC 740-10 will be applicable for the Institute during fiscal year 2010. The Institute is currently in the process of evaluating the effect, if any, the adoption of this guidance will have on its results of operations, financial position, and financial disclosures.

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Classification of Net Assets

Activities of the Institute are recorded in the following net asset categories:

Operating-Unrestricted revenues and operating expenses of the Institute. Current investment earnings are available to support current operations.

Designated—Working Capital Reserve—Amounts designated by the Board of Directors of the Institute to be maintained as part of a reserve and used to support certain specific future activities as defined by the Board of Directors.

Designated-Other-Amounts designated by the Board of Directors to be used in a manner similar to an endowment.

Temporarily Restricted—Contributions restricted, as to time or purpose, by the donor. When the purpose or time period restriction is met, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities as net assets released from restrictions.

Permanently Restricted—Funds that are restricted by donors requiring that the principal be invested in perpetuity. The earnings on these funds are unrestricted and are used for operations in accordance with a spending policy approved by the Board of Directors.

Revenue Recognition

Contributions, including unconditional promises to give, are recognized as revenue in the period received. Contributions are reported as increases in the appropriate category of net assets, except for the contributions that impose restrictions that are met in the same fiscal year they are received, which are included in unrestricted revenues.

Income from grants and contracts is currently recorded as unrestricted revenue when the costs are incurred. Amounts received that have not been expended are recorded as deferred revenue. The amount of expenses incurred in excess of funds received is included in grants and contracts receivable.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Institute considers all highly liquid investment instruments purchased with an initial maturity of three months or less to be cash equivalents.

The Institute has cash in foreign accounts totaling \$19,245 and \$2,883 in 2009 and 2008, respectively.

Investments

The Institute records its investments at fair market value based on quoted market prices, except for alternative investments, which are recorded at estimated values.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Furniture, Fixtures and Equipment

Furniture, fixtures, and equipment are recorded at cost. Depreciation is recorded on the straight-line basis over estimated useful lives that range from three to five years. Leasehold improvements are amortized over the shorter of their useful lives or the lease term. Assets purchased under a capital lease are recorded as an asset and a corresponding obligation at the beginning of the lease term. The recorded amount is equal to the present value of the minimum lease payments. Leased assets are amortized over the shorter of their useful lives or the lease term. When assets are retired or sold, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss arising from such disposition is included in the consolidated statement of activities.

The Institute has capitalized its collections. Collections consist of artwork that is held for public exhibition. Collections purchased are capitalized at cost, collections donated are capitalized at appraised value as of the date of the acceptance of the donation. Collections are not depreciated.

Costs Subject to Audit

The Institute's costs under its government grants and cooperative agreements are subject to audit by the awarding agencies. Management of the Institute does not believe that the results of such audits would have a material impact on the financial position and operating results of the Institute.

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

To stabilize the financial markets, congress provided unlimited federal guarantees on all deposits held in non-interest bearing accounts. At September 30, 2009 and 2008, \$2,266,984 and \$1,392,516 respectively, were held at these institutions. The Institute has not incurred any losses on these funds.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE A—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES—Continued

Fair Value of Financial Instruments

Effective October 1, 2008, the Institute adopted new guidance that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The guidance maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the transparency of inputs as follows:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the report date. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the report date. The nature of these securities include investments for which quoted prices are available but traded less frequently and investments that are fair valued using other securities, the parameters of which can be directly observed.

Level 3 – Securities that have little to no pricing observability as of the report date. These securities are measured using management's best estimate of fair value, where the inputs into the determination of fair value are not observable and require significant management judgment or estimation.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the entity.

The Institute considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the entity's perceived risk of that instrument.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE B-INVESTMENTS

Investments were as follows as of September 30, 2009:

	Level 1	Level 2	Level 3		Total
Money market accounts Equity securities Debt securities Investments in fixed income	\$ 134,090 12,398,887 874,776	\$ \$ 	<u> </u>	\$	134,090 12,398,887 874,776
and equity hedges	 	<u></u>	21,609,682		21,609,682
	\$ 13,407,753	\$ <u> </u>	21,609,682	\$.	35,017,435

Investment return consists of the following for the years ended September 30:

'	·	2009	 2008
Realized losses Unrealized gains (losses) Dividends and interest Investment management fees and foreign taxes	\$	(2,801,633) 1,964,846 282,440 (98,478)	\$ (1,587,193) (8,251,750) 751,392 (307,653)
Total	.\$	(652,825)	\$ (9,395,204)

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE C-GRANTS, PLEDGES, AND CONTRACTS RECEIVABLE

Grants, pledges and contracts receivable are recorded at their net realizable values. The mix of receivables as of September 30, was as follows:

	2009	2008
U.S. government	4%	2%
Foundations	19%	17%
Foreign governments	24%	11%
International organizations	8%	13%
Corporations, individuals, and others	45%	57%
	100%	100%

As of September 30, the Institute's receivables were due as follows:

		2009	<u>.</u>	2008
Less than one year One to four years Allowance for doubtful accounts Unamortized discount on receivables	\$	11,297,574 2,908,924 (124,260) (100,867)	\$	9,568,648 3,780,000 (89,893) (217,003)
Grants, pledges, and contracts receivable, net	<u>\$</u>	13,981,372	\$	13,041,752

Contributions that are to be received over multiple years are discounted to present value using the risk free rate of return, for the year in which the contributions were pledged.

NOTE D-FURNITURE, FIXTURES, AND EQUIPMENT

Furniture, fixtures, and equipment consist of the following at September 30:

		2009.	 2008
Furniture and equipment Leasehold improvements Equipment under capital lease agreements Artwork	\$	3,068,115 1,002,500 85,562 8,825	\$ 2,754,413 967,606 141,552 8,825
Less: accumulated depreciation and amortization		4,165,002 (2,987,786)	3,872,396 (2,577,484)
Furniture, fixtures, and equipment, net	<u>\$</u> .	1,177,216	\$ 1,294,912

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE E—OBLIGATIONS UNDER CAPITAL LEASES

The Institute is obligated under capital lease agreements for certain copy equipment. The aggregate discounted lease payments are recorded as a liability. Obligations under capital leases and the fair market values of the related leased assets are capitalized and amortized over the related lease periods. Total assets capitalized pursuant to such agreements, and the related accumulated amortization at September 30, were as follows:

		2009	 2008
Equipment under capital lease Less: accumulated amortization	\$ 	85,562 (57,360)	\$ 141,552 (73,413)
Equipment under capital lease, net	<u> </u>	28,202	\$ 68,139

The future minimum lease payments under the capital lease agreements and the present value of the minimum lease payments and interest are as follows:

2010 2011	\$	21,544 15,134
Total future minimum lease payments Less: amount representing interest		36,678 (1,705)
Present value of minimum lease payments	\$	34,973

Interest expense related to the capital leases was \$4,496 and \$6,745 respectively, for the years ended September 30, 2009 and 2008.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE F-OFFICE LEASE COMMITMENTS AND RENT ABATEMENT

The Institute has entered into various operating lease agreements. During 2007, the Institute renegotiated and extended its current lease, under an agreement which expires in February 2019. As part of the office building lease, the Institute received two months of free rent. This rent abatement is being amortized on a straight-line basis over the life of the lease as a reduction of rent expense.

The future minimum lease payments as of September 30, 2009, are as follows:

September 30,	J	ері	em	ber	30,
---------------	---	-----	----	-----	-----

2014 and thereafter Total	2,147,000 12,298,780 \$ 20,643,739
2012 2013.	2,100,413 2,147,660
2011	2,054,206
2010	\$ 2,042,680

Rental expense for these leases was \$2,147,654 and \$1,963,196 for the years ended September 30, 2009 and 2008, respectively.

NOTE G-LOANS PAYABLE

During fiscal year 2008, the Institute obtained a margin loan of \$2,000,000 from Citigroup Smith Barney with an open maturity date. The interest rate on the line-of-credit was based on London Interbank Offered Rate (LIBOR) as published in The Wall Street Journal "Money Rates" table two business dates after the date the line-of-credit is requested. The assets held in four of the Institute's investment accounts are collateral for this loan. The balance outstanding on this loan at September 30, 2008 was \$2,000,000. The Institute borrowed against the margin line rather than drawing funds from investments and realizing losses in the process. This loan was paid off in fiscal year 2009.

NOTE H-FUNDS HELD FOR OTHERS

The Ford Foundation gave a grant (for endowment) of \$1,200,000 to ACTS (an unrelated organization) in Nairobi, Kenya. ACTS requested the Institute to hold the funds in an interest-bearing account until further notice, earning interest of \$282,838 as of September 30, 2009.

In addition, \$6,027 is being held for Millennium Assessment Zayed Award, and Asian Development Bank as of September 30, 2009 as pass thru grants.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE I—TEMPORARILY RESTRICTED NET ASSETS

As of September 30, temporarily restricted net assets are restricted for the following programs:

		2009	2008
Embarq	\$	3,213,081	\$ 5,161,073
Climate, energy, and pollution		4,381,866	2,837,798
People & Ecosystems		5,371,017	3,132,208
Institutions and governance		2,442,839	792,362
Market & Enterprise		1,691,577	960,475
Special studies		1,081,358	464,417
Communication/World Resources Report		1,098,681	1,685,691

Total	\$ 9,790,975	\$.	9,612,734

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE J—PERMANENTLY RESTRICTED NET ASSETS

In 1987, the MacArthur Foundation gave the Institute a challenge loan of \$12,516,000 with the understanding that it would forgive this loan to the extent that the Institute raised qualifying matching funds under a comprehensive development program. The purpose of the challenge loan was to facilitate the establishment of a permanent endowment for the Institute.

After the Institute successfully met the terms of the loan agreement, an endowment was formally established at the level of \$25 million (cost basis) on January 1, 1991, with earnings on the corpus expendable to support any activities of the Institute. The Institute's Board of Directors adopted a policy statement entitled *Endowment Fund: Purposes, Goals, and Policies*, which establishes spending rules for future withdrawals of earnings to cover portions of the Institute's annual operating budget while protecting the value of the endowment against inflation. Investment earnings from the endowment (net of investment expenses) are recognized as unrestricted designated revenue.

In 2003 and 2007, two individuals contributed \$100,000 and \$250,000 respectively for the purpose of creating endowment funds to enable the Institute to hire interns. Investment earnings from the endowment funds are recognized as unrestricted designated revenue and used to pay for interns.

Interpretation of Relevant Law

The Management and Board of Directors of the Institute have interpreted Delaware's "Uniform Prudent Management of Institutional Funds Act of 2007" (the Act), absent explicit donor stipulations to the contrary, to require the Institute to act in good faith and with the care that an ordinarily prudent person in a like position would exercise under similar circumstances in making determinations to appropriate or accumulated endowment funds, taking into account both its obligation to preserve the value of the endowment and its obligation to use the endowment to achieve the purposes for which it was donated. The Institute classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment required by the applicable donor gift instrument, if applicable.

Endowment Investment Policies

The Institute's investments are managed in accordance with the Board adopted Investment Policy Statement. The investment strategy of the the Institute is to emphasize total return; that is, the aggregate returns from capital appreciation and dividend and interest income.

Specifically, the primary objective in the investment management for Endowment assets shall be:

Long-term growth of capital, emphasizing long-term growth of principal while avoiding excessive risk. Short-term volatility will be tolerated in as much as it is consistent with the volatility of a comparable market index.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE J—PERMANENTLY RESTRICTED NET ASSETS—Continued

Endowment Investment Policies—Continued

The secondary objective in the investment management of Endowment assets shall be:

Preservation of Purchasing Power After Spending - To achieve net returns (after management and custodial fees) in excess of the rate of inflation plus our spending guideline (see below) over the investment horizon in order to preserve purchasing power of Endowment assets. Risk control is an important element in the investment of Endowment assets.

Over the established investment horizon of 10 years or longer, it is the goal of the aggregate Endowment assets to significantly exceed the rate of inflation (as measured by the Consumer Price Index) plus 1.0% over a market cycle.

The investment allocation is shown in footnote B.

Endowment Spending Policy

The Board of Directors approves an operating budget and associated endowment draw annually. The Institute spending guideline shall normally be 5% of the trailing 12 quarter average market value of the investments. The Board may approve a deviation from the 5% guideline if deemed prudent.

During 2009, \$1,869,320 of these earnings were transferred from temporarily restricted to unrestricted operating net assets in accordance with the policy statement referred to above.

Funds with Deficiencies

From time to time, the fair value of assets associated with the individual donor restricted endowment funds may fall below the level that the donor requires the Institute to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets. As of September 30, 2009, \$871,234 of deficiencies were reported in temporarily restricted net assets.

Endowment Net Asset Composition by Type of Fund as of September 30, 2009:

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted endowment funds	\$ 2,443,320	\$ 2,257,929	\$ 25,337,766	\$ 30,039,015

Notes to Consolidated Financial Statements-Continued

Total investment return		(44,822)	(609,863)			(654,685)
Appropriation of endowment assets for expenditure			(1,869,320)	·	-	(1,869,320)
Endowment net assets, end of year	\$.	2,443,320	\$ 2,257,929	\$ 25,337,766	\$	30,039,015

NOTE K-SHORT FALL IN RESTRICTED NET ASSETS

The Institute's temporarily and permanently restricted net assets were under funded by approximately \$7.1 million dollars at September 30, 2009. The shortfall is due to unrealized losses on investments and long term contributions not yet received. The Institute believes that unrealized losses on investments are temporary in nature and the Organization will collect its multi-year contributions to meet its restrictions when they are released.

Notes to Consolidated Financial Statements—Continued

September 30, 2009 and 2008

NOTE L—SIGNIFICANT CONTRACTS

The Institute was awarded a four-year \$4,900,000 grant on December 11, 2008, by the Netherlands Ministry of Foreign Affairs for core funding in response to their proposal Leveraging Change at the Nexus of Poverty, Ecosystem and Governance. WRI has received \$2,100,000 as of September 30, 2009. A total of \$2,005,664 of this grant has been spent as of September 30, 2009.

The Institute initiates and completes a substantial portion of its projects within the Institutions & Governance and People & Ecosystems Programs pursuant to couple of cooperative agreements from the U.S. Agency for International Development. The revenue pursuant to these cooperative agreements was \$1,713,415 and \$2,379,276 for the years ended September 30, 2009 and 2008, respectively. Such revenue accounted for approximately 5.67 percent and 10.9 percent of total federal and non-federal grants, contributions, and cooperative agreement revenues during the years ended September 30, 2009 and 2008, respectively.

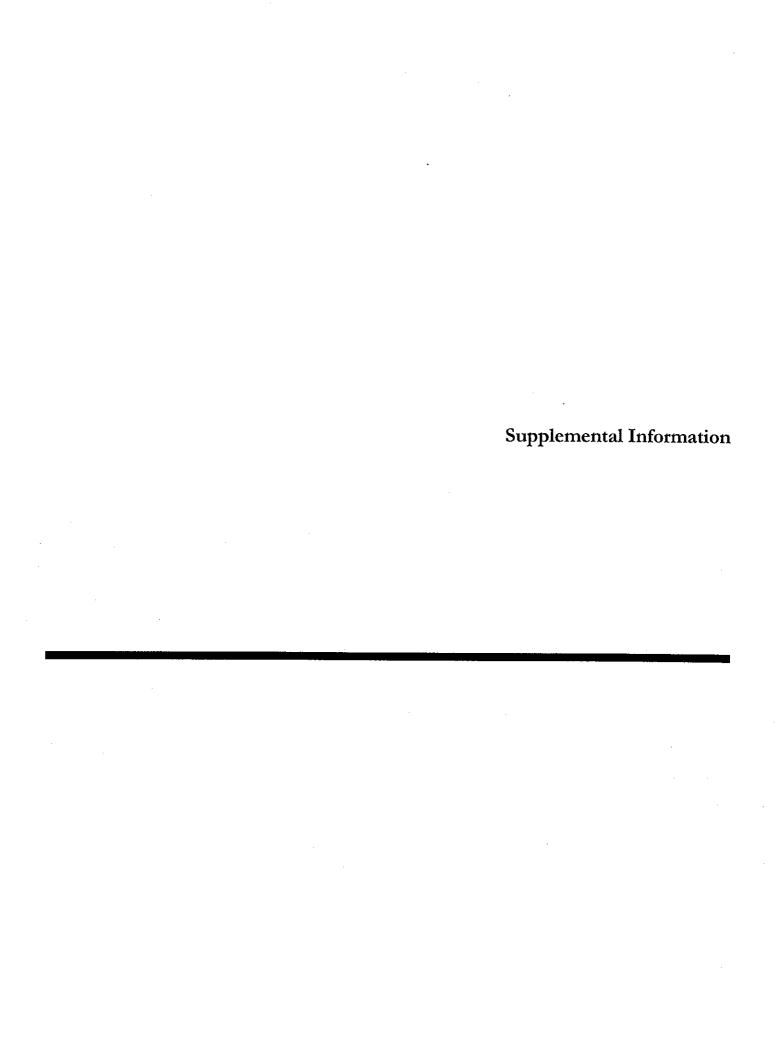

NOTE M—EMPLOYEE BENEFITS

The Institute contributes either 5 percent or 8 percent (based on years of service) of eligible employees' annual earnings, as defined in Plan agreements under a defined contribution plan. The amount contributed to the Plan for the years ended September 30, 2009 and 2008, was \$752,865 and \$670,352, respectively.

NOTE N—SUBSEQUENT EVENTS

In May 2009, the Financial Accounting Standards Board issued new guidance to incorporate the accounting and disclosure requirements for subsequent events into U.S. generally accepted accounting principles. The guidance introduces new terminology, defines a date through which management must evaluate subsequent events, and lists the circumstances under which an entity must recognize and disclose events or transactions occurring after the balance-sheet date. The Institute adopted this guidance as of September 30, 2009.

The Institute evaluated its September 30, 2009 financial statements for subsequent events through December 15, 2009, the date the financial statements were available to be issued. The Institute is not aware of any subsequent events which would require recognition or disclosure in the consolidated financial statements.

Notes to Schedule of Expenditures of Federal Awards

Year ended September 30, 2009

NOTE A—BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes all federal grants to the Institute that had expenditure activity during the year ended September 30, 2009. This Schedule has been prepared on the accrual basis of accounting for expenditures in accordance with accounting principles generally accepted in the United States of America. Grant revenues and expenditures are recorded for financial reporting purposes when the Institute has met the qualifications for the respective grants. Grant revenues are equivalent to grant expenditures. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-profit Organizations Receiving Federal Awards.

NOTE B—SUBRECIPIENTS

Of the federal expenditures presented in this Schedule, the Institute provided federal awards to subrecipients in the following areas:

		2009
U.S. Agency for International Development: Governing Ecosystems	\$	11,496
U.S. Agency for International Development: Market Initiatives/Adv Clean Energy & Sustn Grn Busn Dev in India		40,000
U.S. Agency for International Development: Improved Governance & Sustainable		40,000
Use of Forest Resources		457,592
U.S. Agency for International Development: Pass-through from PACT, Inc.		16,750
U.S. Agency for International Development: Pass-through from ARD, Inc.		24,641
U.S. Department of State: Accelerating Clean Energy Markets in India		25,833
U.S. Department of State: Guidelines for Safe & Effective Carbon Capture & Storag U.S. Fish & Wildlife Service: Capacity Bldg for Protected Areas in	ge	154,655
Hoima District – Uganda		30,000
U.S. Department of the Interior: Support U.S. Efforts to Map & Identify Causes of		
Reef Degradation		30,000
Total subrecipient payments	\$	790,967

NOTE C-CATALOG OF FEDERAL DOMESTIC ASSISTANCE

Catalog of Federal Domestic Assistance (CFDA) numbers are not assigned to the U.S. Agency for International Development grants and contracts. However, because of their similarities, we have considered all such contracts as one program for determination in applying OMB Circular A-133.

Report of Independent Certified Public Accountants on Internal Control over Financial Reporting and on Compliance 1703,847,7500 and Other Matters-Based on an Audit of Financial Statements F 703.848.9580 Performed in Accordance with Government Auditing Standards www.GrantThornton.com

Board of Directors World Resources Institute and Subsidiary

We have audited the financial statements of World Resources Institute and Subsidiary (The Institute) as of and for the year ended September 30, 2009, and have issued our report thereon dated December 15, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Institute's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing an opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control over financial reporting. Accordingly, we express no such opinion.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described above and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses in the Institute's internal control over financial reporting. We did not identify any deficiencies in the Institute's internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Institute's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Board of Directors, Audit Committee, management, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Board of Directors
World Resources Institute and Subsidiary

Compliance

We have audited the compliance of World Resources Institute and Subsidiary (the Institute) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended September 30, 2009. The Institute's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Institute's management. Our responsibility is to express an opinion on the Institute's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Institute's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Institute's compliance with those requirements.

In our opinion, the Institute complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2009.

Internal Control Over Compliance

The management of the Institute is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Institute's internal control over compliance with requirements that could have a direct and material effect on a major federal program as a basis for designing audit procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion of the effectiveness of the Institute's internal control over compliance. Accordingly, we express no such opinion.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis with a type of compliance requirement of a federal program. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected.

Our consideration of internal control was for the limited purpose described above and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses in the Institute's internal control over compliance. We did not identify any deficiencies in the Institute's internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Directors, Audit Committee, management, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Note to Schedule of Indirect Cost and Fringe Benefit Rate Calculations

Year ended September 30, 2009

NOTE A-BASIS OF ACCOUNTING

The calculation of allocation rates is prepared in accordance with the methodologies used by the Institute in negotiating its indirect facility cost, fringe benefit, and general and administrative cost rates with its oversight agency, the U.S. Agency for International Development. Revenue is recorded using provisional approved rates. The difference between actual and provisional rates is not material to the financial statements as a whole.

Facility Cost Rate—represents total indirect costs less unallowable costs as a percentage of total direct costs, which includes fringe benefit costs, less all charges representing costs incurred pursuant to subcontract or subgrant agreements and unallowable costs.

Fringe Benefit Rate—represents the cost of total fringe benefit expenses as a percentage of total salary and wage charges that result in related fringe benefit expenses. Fringe benefit costs are included as a direct cost in the calculation of both the overhead, and the general and administrative cost rates.

General and Administrative Rate—represents all general and administrative expenses as a percentage of direct costs incurred, less charges representing costs incurred pursuant to subcontract or subgrant agreements.

Subgrant Pool Rate-represents subgrant-related salaries as a percentage of total subgrant costs.
