

Errata to
Advanced Energy Design Guide for Grocery Stores—
Achieving 50% Energy Savings Toward a Net Zero Energy Building
(2015)

April 29, 2015

**Pages 71,
75, 79,
83, 87,
91, 95, 99:**

In the Daylighting/Lighting > Interior Lighting section of each of the climate zone recommendation tables in Chapter 4, the how-to tip listed for the entry “All CFL and HID ballasts” reads “EL13,” but the EL how-to tips were misnumbered in the first printing. For convenience, change all the “EL13” listing in the Chapter 4 recommendation tables to “**EL12.**”

Page 128:

The figure caption needs to include “**(DL8)**” at the beginning of it, and the (a) and (b) for the figures need adjusting. Please refer to the following corrected figure:

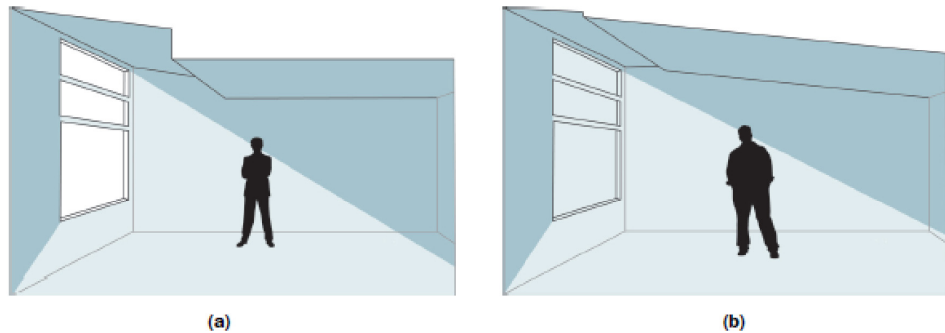

Figure 5-13 (DL8) Daylighting Ceiling Configurations:
(a) Raised Ceiling at Façade and (b) Sloped Ceiling at Façade

Page 162:

Kitchen Equipment how-to tip KE7 should be numbered “**KE6.**”
