

**Errata to  
HVAC Design Manual for Hospitals and Clinics,  
Second Edition**

**March 1, 2024**

*Shaded items have been added since the previously published errata sheet dated August 8, 2020.*

---

---

**Pages 8:** The heading for Section 1.5.1 that is currently at the top of page 8 needs to be moved down to the next paragraph on that page.

**Page 31:** In the last sentence of the second paragraph, delete “; or that the dew point is above the surface temperatures.”

**Pages 57–58:** The order of Figures 3-11 and 3-12 is backward. What is labeled Figure 3-11 should be Figure 3-12, and vice versa.

**Page 76:** In the first line of this page and in the last line of the second paragraph on this page, change the phrase “high-voltage connection” to “**electrical connection**”.

**Pages 115–16:** The heading for Section 5.3.4 that is currently at the top of page 116 needs to be moved to be at the very beginning of that paragraph, which is at the bottom of page 115.

**Page 152:** In the equation at the bottom of the left column, change the equation from

$$A_L = C_5 Q_r ((\rho/2\Delta p_r)^{1/2}) / C_D \Delta p_r$$

to

$$A_L = C_5 Q_r ((\rho/2\Delta p_r)^{1/2}) / C_D$$

**Page 266:** In the equation for  $Q_w$  in I-P units, change the  $T_w$  value from 66.8°F to **69.6°F**.

In the equation for  $Q_w$  in SI units, change the  $T_w$  value from 19.3°F to **20.7°C**.

In the equation for  $Q_s$  in SI units, change the  $T_s$  value from 23.6°F to **23.7°C**.

**Page 268:** Change the equation for  $Q$  in SI units from

$$Q = (T_1 \dot{U} T_2) / R_{total} = 54/31.17 = 1.732$$

$$1.732 = (72 \dot{U} X) / 0.92$$

$$X = 70.4^\circ\text{F}$$

to

$$Q = (T_1 \dot{U} T_2) / R_{total} = 30/5.5 = 5.45$$

$$5.45 = (22 \dot{U} X) / 0.16$$

$$X = 21.1^\circ\text{C}$$
