PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://osr.ashrae.org>. To obtain a paper copy of any Public Review Draft contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: standards.section@ashrae.org. Paper copies are \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.

NOTE: Commenters will receive automated e-mails to acknowledge their comments and notification of project committee responses to those comments. To ensure you receive these notifications please add OSRacknowledgement@ashrae.org to your trusted sources.

30-day Public Review from April 16, 2021 to May 16, 2021

- ♦ **1st Public Review of BSR/ASHRAE/IES Addendum b to ANSI/ASHRAE/IES Standard 90.2-2018, *Energy-Efficient Design of Low-Rise Residential Buildings***

This proposal intends to clarify the classification of the lighting provisions to better indicate which provisions apply to common areas (in multifamily structures or common buildings in single family developments) and which provisions apply to the dwelling units.

45-day Public Review from April 16, 2021 to May 31, 2021

- ♦ **1st Public Review of Addendum m to ASHRAE Guideline 36-2018, *High-Performance Sequences of Operation for HVAC Systems***

The purpose of this addendum is to revise sequences to make it clear that Zone Group modes are determined at the zone level and generate Requests for modes, so there is no need for system level controllers to poll each zone, which creates unnecessary network traffic; new warmup and cooldown logic adjusts thermostat setpoints to the occupied setpoints when that zone's optimum start timer indicates it must run to meet the warmup time; and freeze protection mode is eliminated since it is no longer used.

PUBLICATION NOTICE

The addenda listed below are now available for free download on the ASHRAE website at: <http://www.ashrae.org/standards-addenda>.

- ♦ **ASHRAE Addendum b to ASHRAE Guideline 12-2020, *Managing the Risk of Legionellosis Associated with Building Water Systems***

INTERPRETATIONS

New official interpretations to the following standard are now available on the ASHRAE website at: <http://www.ashrae.org/standards-interpretations>

- ♦ **ANSI/ASHRAE/IES Standard 90.1, *Energy Standard for Buildings Except Low-Rise Residential Buildings***

Interpretation 90.1-2016-14– January 21, 2021 (Refers to the requirements presented in ANSI/ASHRAE/IES Standard 90.1-2016, Table G3.1 No. 5 Baseline Column (a), regarding Appendix G Baseline Orientation.)

INTERIM MEETINGS

A complete listing of project committee interim meetings is provided on ASHRAE's website at: <https://www.ashrae.org/technical-resources/standards-and-guidelines/project-committee-interim-meetings>.

- ♦ **SSPC 15, *Safety Standard for Refrigeration Systems*.** The Standard 15.2P Subcommittee, *Safety Standard for Refrigeration Systems in Residential Applications*, will hold a webinar on Tuesday, May 4, 2021, from 2:00 pm to 4:00 pm (Eastern). For additional information, please contact Ryan Shanley, Staff Liaison to SSPC 15 (rshanley@ashrae.org).
- ♦ **SSPC 30, *Method of Testing Liquid Chillers*,** will hold a conference call on May 6, 2021 from 10:00 am to 11:30 am (Eastern). For additional information contact Justin Prosser, Chair of SSPC 30 (justin.prosser@danfoss.com).
