PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. All activity for reviewing and commenting on public review drafts can be accomplished completely online. To obtain a paper copy of any Public Review Draft contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: standards.section@ashrae.org. **Note: Paper copies are available for \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.**

**30-day Public Review from
May 5, 2023, to June 4, 2023**

- ♦ **1st Public Review of BSR/ASHRAE/ICC/USGBC/IES Addendum *ba* to ANSI/ASHRAE/ICC/USGBC/IES Standard 189.1-2020, *Standard for the Design of High-Performance Green Buildings Except Low-Rise Residential Buildings***

This Addendum revises the definition of potable water to match the definition in the International Plumbing Code. The change will avoid confusion by excluding natural freshwater sources that are not considered "potable" under most common definitions. These changes are not expected to add cost to the standard.

- ♦ **1st Public Review of BSR/ASHRAE/ICC/USGBC/IES Addendum *bc* to ANSI/ASHRAE/ICC/USGBC/IES Standard 189.1-2020, *Standard for the Design of High-Performance Green Buildings Except Low-Rise Residential Buildings***

This addendum updates the references in Section 11 Normative References.

- ♦ **2nd Public Review (ISC) of BSR/ASHRAE/ICC/USGBC/IES Addendum *ak* to ANSI/ASHRAE/ICC/USGBC/IES Standard 189.1-2020, *Standard for the Design of High-Performance Green Buildings Except Low-Rise Residential Buildings***

This addendum (2nd PPR ISC) aligns with the requirements proposed for EPD disclosure in Addendum *z*. The requirements include a minimum number of procured products to meet GWP limits set at 125% of the industry-wide EPD average. Projects can comply by providing an EPD or LCA for each building product that show the product's GWP is less than 125% of the industry average for cradle-to-gate production. This addendum provides the environmental benefit of lowering GHG emissions through the selection of building products with lower GWP.

- ♦ **3rd Public Review (ISC) of BSR/ASHRAE/ICC/USGBC/IES Addendum *t* to ANSI/ASHRAE/ICC/USGBC/IES Standard 189.1-2020, *Standard for the Design of High-Performance Green Buildings Except Low-Rise Residential Buildings***

This third independent substantive change (ISC) removes an exception in the 2nd ISC to the renewable energy requirement for greenhouses and grow facilities dedicated to food for human consumption.

- ♦ **2nd Public Review (ISC) of BSR/ASHRAE Addendum *g* to BSR/ASHRAE Standard 90.4-2022, *Energy Standard for Data Centers***

This addendum makes changes to Addendum *g*. Definitions were modified in section 3 and mandatory language in Section 6 to support the regulation of process heat and process ventilation was moved in the section for clarity. Other changes are added based on comments from the first public review including changes to informative notes.

STANDARDS ACTIONS

PUBLIC REVIEW—CALL FOR COMMENTS

30-day Public Review from May 5, 2023, to June 4, 2023

- ♦ **1st Public Review of BSR/ASHRAE/ASHE Addendum e to ANSI/ASHRAE/ASHE Standard 189.3-2021, Design, Construction, and Operation of Sustainable High-Performance Health Care Facilities**

This proposed addendum revises the Title, Purpose, and Scope (TPS) of Standard 189.3 to better align with ANSI/ASHRAE/ICC/USGBC/IES 189.1, *Standard for the Design of High-Performance Green Buildings Except Low-Rise Residential Buildings* and the industry change to decarbonize the built environment.

45-day Public Review from May 5, 2023, to June 19, 2023

- ♦ **BSR/ASHRAE Standard 224P, Standard for the Application of Building Information Modeling (Second Public Review Draft)**

ASHRAE Standard 224-202x provides minimum requirements for the application of Building Information Modeling (BIM) to the planning, design, construction, and operation of buildings. This standard defines how to incorporate BIM requirements in design, construction, and operations services contracts.

INTERIM MEETINGS

A complete listing of project committee interim meetings is provided on ASHRAE's website at: <https://www.ashrae.org/technical-resources/standards-and-guidelines/project-committee-interim-meetings>

- ♦ **GPC 44P, Protecting Building Occupants from Smoke During Wildfire and Prescribed Burn Events**, will hold a web meeting on May 10, 2023 from 2:30 pm to 4:30 pm (Eastern).

For additional information contact Steven Emmerich, Chair of GPC 44 (steven.emmerich@nist.gov).

- ♦ **SPC 150-2019R, Method of Testing the Performance of Cool Storage Systems**, will hold conference calls from 5:00 pm to 6:00 pm (Eastern) on the follow dates:

⇒ May 8, 2023

⇒ June 12, 2023

For additional information contact Charles Dorgan, Chair of SPC 150 (cedorgan@wisc.edu).

- ♦ **SSPC 62.2, Ventilation and Acceptable Indoor Air Quality in Residential Buildings**,

SSPC 62.2 IAQ Subcommittee will hold a web meeting on May 12, 2023 from 11:00 am to 1:00 pm (Eastern).

For additional information contact Mark Weber (mweber@ashrae.org).
