## PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed at <https://osr.ashrae.org>. To obtain a paper copy contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: [standards.section@ashrae.org](mailto:standards.section@ashrae.org). Paper copies are \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.

### 30-day Public Review from October 1, 2021 to October 31, 2021

- ♦ **2nd ISC Public Review of BSR/ASHRAE Addendum a to Standard 41.1-2020, *Standard Methods for Temperature Measurements***

This addendum revises and adds definitions in/to Section 3 and adds a new Section 5.4 while renumbering and revising Sections 5.4 and 5.5. Sections 8.1, 9.5, and 10 are also revised.

- ♦ **1<sup>st</sup> Public Review of BSR/ASHRAE Addendum j to ANSI/ASHRAE Standard 62.2-2019, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***

This proposed addendum prohibits the installation of unvented combustion space heaters within dwelling units. Unacceptable concentrations of products of combustion can be generated at the ventilation rates allowed in this standard when combustion appliances are unvented.

### 45-day Public Review from October 1, 2021 to November 15, 2021

- ♦ **1<sup>st</sup> Public Review of BSR/ASHRAE Addendum h to ANSI/ASHRAE Standard 62.2-2019, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***

This proposed addendum is intended to make the standard more consistent in the language used in the text and to more appropriately arrange and organize several sections of the standard. In addition, several changes have been made to better accommodate multi-family applications of the standard, such as the inclusion of a definition of "corridor" and consistent use of the term "dwelling unit". The heating degree day definition has been removed as it is no longer used in the standard.
