PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. All activity for reviewing and commenting on public review drafts can be accomplished completely online. To obtain a paper copy of any Public Review Draft contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: standards.section@ashrae.org.

Note: Paper copies are available for \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.

**30-day Public Review from
October 6, 2023, to November 5, 2023**

- ♦ **2nd Advisory Public Review of BSR/ASHRAE/IES Addendum I to ANSI/ASHRAE/IES Standard 90.1-2022, *Energy Standard for Sites and Buildings Except Low-Rise Residential Buildings***

Through this second advisory public review, Standard 90.1 is soliciting feedback about a proposed informative appendix that jurisdictions could adopt to achieve a zero emission (ZE) building. The appendix demonstrates the necessary modifications to existing Sections 3, 4, and Appendix G to achieve zero emission requirements. The new appendix is based on the Performance Rating Method as modified with new targets for the Performance Energy Index Site (PEI_{site}) and Performance Emissions Index Greenhouse Gas (PEI_{CO2e}) metrics. Jurisdictions have flexibility to determine their timeline for reaching the zero-emission target.

- ♦ **1st Public Review of BSR/ASHRAE Addendum o to ANSI/ASHRAE Standard 34-2022, *Designation and Safety Classification of Refrigerants***

This proposed addendum delineates the designation numbering of zeotropic refrigerant blends following the assignment of R-499A.

**45-day Public Review from
October 6, 2023, to November 20, 2023**

- ♦ **ASHRAE/ASHE Guideline 43P, *Operations Guideline for Ventilation of Health Care Facilities (First Public Review Draft)***

The purpose of this guideline is to provide recommendations for the operation of heating, ventilation and air conditioning (HVAC) systems that provide environmental control in health care facilities for the safety and comfort of health care facility occupants. The intent of Guideline 43 is to provide an operational guideline for health care facilities that will work in collaboration with the design standard ASHRAE/ASHE Standard 170, Ventilation of Health Care Facilities, which has been adopted by reference by the Centers for Medicare & Medicaid Services. The Guideline covers the implementation of a maintenance program through defining the responsible party, a minimum maintenance program and the elements of the program along with providing guidance on legacy systems, condition indicators, excursion variations, and program improvement opportunities.
