### **30-day Public Review from September 16, 2022 – October 16, 2022**

- ♦ **1<sup>st</sup> Public Review of BSR/ASHRAE/IES Addendum e to ANSI/ASHRAE/IES Standard 90.2-2018, High-Performance Energy Design of Residential Buildings**

This proposal introduces a new section for lighting controls in common and public areas where previously only a reference to the 90.1 requirements was available. This provides 90.2 users with direct access to the necessary provisions, in addition to serving as the leadership compliance option. Compliance with the 90.1 lighting control requirements continues to be an option.

### **45-day Public Review from September 16, 2022 – October 31, 2022**

- ♦ **1<sup>st</sup> Public Review of Addendum a to ASHRAE Guideline 13-2015R, Specifying Building Automation Systems**

This addendum to Guideline 13-2015 provides recommendations for developing specifications for building automation systems (BASs) in heating, ventilating, and air-conditioning (HVAC) control applications.
